Subject: Contribution from IAE-CP

We have received the first EXFOR entries from the Charged-particle Nuclear Data Group at the Institute of Atomic Energy, Beijing, People's Republic of China. We have finalized the entries here and send it out as

TRANS S001

Accordingly the Chinese CPND Group has been assigned the center code S. In fact, this has been included already on page 2.2 of the recently distributed EXFOR Manual updates.

We also received the first CP-Memo from the Chinese CPND Group, which is attached. It relates to Dictionary additions.
