- Actions:**
- 1) Kindly submit any other topic that you wish to include on the agenda.
  - 2) In view of the technical character of the agenda, kindly let me know fast on whose name we should issue the invitation letters.
  - 3) Please, review the actions from the last meeting and see which actions should still be done.

**Note:** It is an alarming fact that some of the centers are far behind schedule with respect to the compilation and transmission of Exfor data and/or CINDA entries. It is hardly worth while to print the next CINDA book, due to lack of completeness. Nuclear data evaluation is hardly possible now because too many recent data (and even data from the past five years) are missing in EXFOR. - Kindly check the situation at your center and report at the meeting.

Please find attached a list of the TRANS tapes received in 1994. Kindly check whether your files are complete; if not, request a copy of the missing TRANS tape(s) from us.

List of last TRANS tapes by 27 January 1995
