Memo CP-D/513

Date: 20 August 2008
To: Distribution
From: N. Otsuka, S. Dunaeva, V. Zerkin, B. Goh, A. Mengoni,
Subject: EXFOR completeness for neutron data published in Phys. Rev. C

Motivated by the activity of the WPEC SG-30, we started a systematic analysis of the EXFOR coverage for data published in major journals. A full account of the present status of the EXFOR database coverage as compared to the published literature has been presented at the SG-30 meeting of 4-6 June 2008 at JAEA, Tokai-mura, Japan (slides are enclosed in Appendix).

From this analysis, a list of missing compilations (papers published, data not compiled into EXFOR) has been prepared in the case of:

Journal : PR/C
Period : 1970 – 2005
Reaction : n-induced

In order to reach **full coverage** for n-induced reactions published in PR/C the following papers should be compiled into EXFOR:

Vol.	No	Page	Published	Lab	Quantity	Remark
1	4	1221	1970-04	3CRORBZ	DA2
