**Subject: Draft of updated Formats Manual (IAEA-NDS-207 Rev.2010/09)**

A draft of updated EXFOR (Exchange) Formats Manual (IAEA-NDS-207 Rev.2010/09) is now available at the NRDC webpage:

[http://www-nds.iaea.org/nrdc/nrdc\\_doc/iaea-nds-0207-201009-dra.pdf](http://www-nds.iaea.org/nrdc/nrdc_doc/iaea-nds-0207-201009-dra.pdf).

Comments from all other NRDC members are also highly appreciated. I will correct the manuscript based on these feedbacks.

Major changes are based on memos, conclusions and actions, and they are summarized in the table below. There are also a few additional corrections.

According to Action 1 of the NRDC 2010 meeting:

“Correct titles of EXFOR Manuals to agree with the contents”, I propose to change the title of the manual from “**EXFOR Exchange Formats Manual**” to “**EXFOR Formats Manual**”. There are various output formats of the EXFOR database, and probably “Exchange” in the current title intends to stress that the manual deals with the “original” EXFOR format. If we need to indicate “Exchange”, we can keep the title as it is. The current title (EXFOR Exchange Formats Manual) also agrees with its contents.

(I do not think we need to change the title of “LEXFOR – EXFOR Compiler’s Manual”).

Again this is still a draft, and open for discussion until the end of September. On the basis of your comments, I will revised the current draft, and release the final version in September 2010.
