MEMO CP-N/25

DATE: 25 June 2003
TO: Distribution
FROM: M. A. Kellett
SUBJECT: Additions to Dictionary 003 (Institute Codes)

Dear All,

Please note the following Dictionary 003 additions:

2FR GAN Grand Accelérateur National d'Ions Lourds - Laboratoire Commun
DSM/CEA-IN2P3/CNRS, Caen

and

2GRCIOA The University of Ioannina, Ioannina

I have checked both of the three letter laboratory codes against the latest dictionary and neither exist already, so there should be no problem in them being added.

Kind Regards,

Mark
