

MEMO CP-A/148

16-Jan-2004

To: **Distribution**  
From: **F.E. Chukreev**  
Subject: **addition for Dictionary 22**

High-energy physics experiments use very complex detector systems. The systems contain hundreds simple detectors, which are combined in sophisticated network. Similar systems can not be described in EXFOR. Therefore I would like to propose new code for the very complex systems as **SPEC**.

SPEC (Very complex detector system)  
REL-REF must contains the system description.
