Memo CP-C/332

DATE: January 16, 2004
TO: Distribution
FROM: V. McLane
SUBJECT: 1) New Dictionary 36 code
2) Reply to memo CP-A/148

1) Please add to Dictionary 36

20, POL/DA/DA/DE, P/A/P+A, TAP Tensor analyzing power,
 $T(20)/dA(p)/dA(\alpha)/dE(p+\alpha)$

P3A NO

2) Addition of code SPEC to Dictionary 22 (Memo CP-A/148)

I agree to the addition of the code SPEC to Dictionary 22, however, I would change the expansion.

SPEC (Large spectrometer system)

I do not agree that REL-REF must contain the system description. As often as not, the system description is in one of the references. The free text should either contain the system description or a where to find the system description. If the reference is not given under REFERENCE, then it should be given under REL-REF.
