Memo CP-D/309

=============

To: Distribution   22
February 2000

From: O.Schwerer

**Subject: Dictionary 7 codes for conferences published as Dubna
reports**

Reference: Memos 4C-4/98 and 4C-4/100

1. In memo 4C-4/98, the codes **94DUBNA, 95DUBNA, 96DUBNA, 97DUBNA,
98DUBNA** and
99DUBNA are proposed for a series of conferences which all were
published as
Dubna reports **JINR-**....

We are hesitating to introduce these codes because this would be a
deviation
from the established practice.

So far, conference codes such as 94DUBNA were introduced only when
there was no
journal or report code for the proceeedings. In many cases, a
conference code
was introduced first but was made obsolete as soon as the
proceedings were
published within a report series. From then on, only the report
code may be used
but not the obsolete conference code.

Since the codes 94DUBNA etc. probably do not appear on the cover,
using both
codes (linked by an = sign) in an EXFOR reference is, in our
opinion, not
helpful for the user. However, in particular for EXFOR compilers,
a way to find
out where certain conferences were published would be convenient.
Discussion
of this question at the upcoming NRDC meeting is proposed.

2. The conference code **92PLOVDV** proposed in memo 4C-4/100 seems to belong to
the same category. According to INIS, it was published in the report
JINR-D-15-93-80.
