**Subject: Addition to Dictionary 22 (Detectors)**

We propose the addition of the following code to dictionary 22:

SISD – Silicon strip detector

The strip detector measures both the position and the energy of the implantation event, and of the subsequent proton and alpha decays of the nucleus. The description of such detector anyone can find in Nucl.Instr.&Meth. A311, p.217-223, 1992.
